

Muhamed Hussein Abd El-Azim

AI & Machine Learning Engineer

✉ mohamedoail1113@gmail.com ☎ 01221828895 📍 Beni Suef - Egypt 🌐 Muhammed Hussein

SUMMARY

Motivated **AI & ML Engineer** with a solid foundation in Machine Learning, Deep Learning, and Computer Vision. Proficient in developing neural network models (CNNs, LSTMs, Transformers), data processing, and building automated workflows using modern AI tools and APIs. Dedicated to solving complex problems and deploying scalable intelligent systems.

EDUCATION

Beni Suef National University, Bachelor's Degree in Artificial Intelligence & Data Science 2023 – 2027 | Egypt
Faculty of Computers and Artificial Intelligence

SKILLS

Machine Learning & Deep Learning

Scikit-Learn, TensorFlow, Keras, PyTorch, OpenCV, Transformers, LSTMs, CNNs

Programming & Tools

Python, C++, SQL, Git/GitHub, VS Code, Docker, Anaconda.

AI & Automation

Workflow Automation, OpenAI API, n8n, UiPath.

Data Processing & Analytics

Pandas, NumPy, Matplotlib

Soft Skills

Problem-Solving, Critical Thinking, Teamwork, Technical Communication, Fast Learner & Adaptable

PROFESSIONAL EXPERIENCE

National Telecommunication Institute (NTI), Natural Language Processing (NLP) Trainee 06/2026 – 07/2026

- Completed 120 hours of hands-on training focused on NLP architectures, text preprocessing, and deep learning models.
- Developed and evaluated text classification and sentiment analysis pipelines using Python, TensorFlow, and Transformers.
- Applied feature extraction and tokenization techniques to optimize model accuracy on real-world text datasets.

Information Technology Institute (ITI), e-Learning & AI Automation Trainee 07/2026 – 08/2026

- Applied machine learning and workflow automation techniques to build interactive e-learning solutions.
- Integrated Python scripts and external APIs to streamline data processing and system workflows.

PROJECTS

Flight Itinerary & Route Planner, Machine Learning & Search Optimization Project 02/2026 – 03/2026
Built an optimal flight route planner in Python using A* search algorithms and an interactive Tkinter GUI.

Customer Support AI Agent with n8n & OpenAI, AI & Workflow Automation Project 06/2026 – 07/2026
Built an automated AI customer support workflow using n8n and OpenAI API to analyze customer inquiries and generate responses.

Deep Learning Sentiment Analysis & Text Classifier, NLP & Machine Learning Project 07/2026 – 08/2026
Developed a text classification model using Python, TensorFlow, and Transformers to evaluate customer feedback.

COURSES

Python for Machine Learning & Data Analysis, Digital Egypt Pioneers Initiative (DEPI) – MCIT 01/2026 – 02/2026
Focused on Python fundamentals, functional programming, and data manipulation libraries.

AI Automation Diploma 03/2026 – 06/2026
Route IT Training Center (Top Achiever)

Natural Language Processing (NLP) 06/2026 – 07/2026
National Telecommunication Institute (NTI) & ITIDA (120 Hours – Score: 95%)

Microsoft Machine Learning Engineer 07/2026 – 03/2027
Digital Egypt Pioneers Initiative (DEPI) – Ministry of Communications and Information Technology(MCIT)

LANGUAGES

Arabic – Native

English – Very good
